# Patchwork Letters

## 1. Find A Font

**Fire up your computer and find yourself a fun, quirky font in your Word Processor. Type out the letters you'd like on your sign, we recommend trying to get all your letters onto 1 side of A4.**

## 2. Print, Cut & Draw !

**Print out your chosen letters and ask mum or dad to come and help you with all the cutting out if you need to. First, cut out your printed letters, and then cut out a side of your cardboard box so that you have a flat surface. Now draw around each letter on your cardboard using a dark pencil or pen, then cut out all your cardboard letters !**

## 3. Time to Patchwork !

**Now for the fun part - patchworking ! Cover each of your letters with glue and then stick your fabric offcuts to the letters, creating a fab patchwork pattern.**

## 4. Go To Town !

**Why not try mixing and matching your fabric offcuts together to create a funky effect?**
